AGILITY SHIPPING
for SAP Business One

Agility Shipping is your one-stop solution for all your picking, packing and shipping needs as it relates to multi-carrier shipping. With Agility Shipping as part of our Enterprise level you can use a mobile device to pick and stage to a packing station to pack and ship and integrate directly with UPS, FedEx and USPS. Additionally, you could pick, pack and ship directly in the aisle and print the shipping label from a mobile device. However you choose to use Agility Shipping the value is in the integration of picking, validating, tracking number generation, label printing and updating SAP Business One with a delivery note and packing records.
