

# WiSys Agility® for SAP Business One®

## Product Roadmap

### Product overview

WiSys has a suite of flexible and scalable products that support advanced WMS, Manufacturing Execution, Shipping and Business Intelligence initiatives in SAP Business One®.

At WiSys, since 2004, we have re-invented how ERP systems create value for customers. To meet the business challenges of a new economy, companies need to focus on reducing reaction time in order to maintain customer loyalties and improve supply chain operations; from receiving through production to product delivery. The WiSys Agility Suite of applications is part of a family of products positioned to achieve efficient Warehouse Management (WMS), Supply Chain Management (SCM) and Manufacturing Execution (MES).

Our core focus is helping SAP Business One® customers by enhancing their ERP with our tools providing a single point of truth for achieving real-time decision-making goals and ultimately doing more with less.
